## COMMUNICATION

The European Patent Office herewith transmits as an enclosure the European search report for the above-mentioned European patent application.

If applicable, copies of the documents cited in the European search report are attached.

Additional set(s) of copies of the documents cited in the European search report is (are) enclosed as well.

The following specifications given by the applicant have been approved by the Search Division:

abstract  title

The abstract was modified by the Search Division and the definitive text is attached to this communication.

The following figure will be published together with the abstract:

3

## REFUND OF THE SEARCH FEE

If applicable under Article 10 Rules relating to fees, a separate communication from the Receiving Section on the refund of the search fee will be sent later.

## ABSTRACT / ZUSAMMENFASSUNG / ABREGE

02425710.7

A method for making knots of retaining nets, such as rock and avalanche fences, wherein a knot consists of a first and second rope (2,3) crossing over each other and a junction binding said ropes, comprises the steps of placing a first and a second U element (7a,8a) astride said first rope (2) and adjacent to said second rope (3) on opposite sides thereof, linking the ends of the first U element to the ends of the second U element by means of bridge elements (9,9d) overlying said second rope (3), and clamping said bridge elements on said second rope (3).
